

Grand Canyon Whitewater Checklist

Tour Includes:

- *Round -trip transportation from Peach Springs
- *Snack, beverages and lunch (vegetarian meals available)
- * Dry storage container

Personal Gear & Packing List

We highly recommend the following personal gear:

- * waterproof shorts (lightweight, fast drying material)
- * rain jacket/poncho for use through rapids
- * tennis/athletic shoes or river-type sandals
- * lightweight jacket/polar fleece sweatshirt
- * lightweight pants for sun protection
- * hat with retention strap or visor
- * sunglasses with strap
- * small bag for belongings
- * swimsuit (optional)
- * t-shirt
- * sun block
- * bandanna
- * towel
- * camera
- * money

All cameras - should have straps. We suggest keeping your camera in a zip-lock bag, even when it is in your dry storage container.

Video cameras- there is no place to recharge batteries. Video cameras will not fit in the dry storage container, therefore we suggest bringing a waterproof bag.

Motorized Rafts

Your Grand Canyon whitewater adventure uses motorized rafts that are designed specifically for traversing the Colorado River. The Colorado River uses a rating scale of 1-10, with rapids on this trip being up to class 7. This is comparable to a class 3+ to 4 rapid on a regular whitewater scale.
